REGULAR ARTICLE

*Jianyu Cui, Wei Rao, Rongxing He**

Effects of functional group position on hole transporting properties of carbazole derivatives in perovskite solar cells pp. 96-109

*Jian Lei, Rongxing He**

Theoretical Treatment of Ultrafast Decay of Excited Vibronic States in the Improved Adiabatic Approximation pp. 110-120

*Yalin Ran, Xian Peng, Xiaoqin Tang, Xiaorui Liu, Wei Shen, Rongxing He, Ming Li**

A theoretical research on the impact of pyridine based and fused cyclic based polymer on the properties of donor polymer for organic solar cells pp. 121-136
